

## Baxter

For the traditionalist who enjoys the finer things in life, the Baxter puts it all together perfectly. This classic log home, with its three cozy bedrooms and full-length porch (that can be screened-in) also includes two full baths. The attached two-car garage has a second story for a potential shop, family room, rec room, or even a fourth bedroom. For year-round or seasonal living, the Baxter is at home in virtually any setting.
